

**2200 Northern Steel SEQR Resolution**

A regular meeting of the Nassau County Industrial Development Agency (the "Agency") was convened in public session at the offices of the Agency located at 1550 Franklin Avenue, Suite 235, Mineola, County of Nassau, New York on June 22, 2011 at 5:00 p.m., local time.

The meeting was called to order by the Chairman, upon roll being called, the following members of the Agency were:

**PRESENT:**

Jeffrey L. Seltzer	Chairman
Louis G. Savinetti	Vice Chairman
Bruce Ungar	Treasurer
Christopher Fusco	Asst. Secretary

**ABSENT:**

Gary Weiss	Secretary
------------	-----------

**THE FOLLOWING ADDITIONAL PERSONS WERE PRESENT:**

Joseph J. Kearney	Executive Director
Colleen Pereira	Administrative Director
Paul O'Brien, Esq.	Bond/Transaction Counsel
Milan Tyler, Esq.	Bond/Transaction Counsel

The attached resolution no. 2011-19 was offered by J. Seltzer, seconded by B. Ungar:

Resolution No. 2011-19

RESOLUTION FINDING THAT ACTION TO UNDERTAKE A  
CERTAIN PROJECT FOR STEEL K, LLC AND 2200 NORTHERN STEEL, LLC WILL NOT  
HAVE A SIGNIFICANT ADVERSE IMPACT ON THE ENVIRONMENT

WHEREAS, the Nassau County Industrial Development Agency (the "Agency") is authorized and empowered by the provisions of Chapter 1030 of the 1969 Laws of New York, constituting Title I of Article 18-A of the General Municipal Law, Chapter 24 of the Consolidated Laws of New York, as amended (the "Enabling Act"), and Chapter 674 of the 1975 Laws of New York, as amended, constituting Section 922 of said General Municipal Law (said Chapter and the Enabling Act being hereinafter collectively referred to as the "Act") to promote, develop, encourage and assist in the acquiring, constructing, reconstructing, improving, maintaining, equipping and furnishing of manufacturing, industrial and commercial facilities, among others, for the purpose of promoting, attracting and developing economically sound commerce and industry to advance the job opportunities, health, general prosperity and economic welfare of the people of the State of New York, to improve their prosperity and standard of living, and to prevent unemployment and economic deterioration; and

WHEREAS, to accomplish its stated purposes, the Agency is authorized and empowered under the Act to acquire, construct, reconstruct and install one or more "project" (as defined in the Act) or to cause said project to be acquired, constructed, reconstructed and installed and to convey said project or to lease said project with the obligation to purchase; and

WHEREAS, Steel K, LLC, a limited liability company organized and existing under the laws of the State of Delaware and qualified to do business in the State of New York as a foreign limited liability company (the "Applicant"), presented an application (the "Application") to the Agency, which Application requested that the Agency consider undertaking a project (the "Project") consisting of the following: (A)(1) the acquisition of an interest in a parcel of land located at 2200 Northern Boulevard, Village of East Hills, Town of North Hempstead, County of Nassau, New York (Section: 7; Block: 273; Lot: 44 & 45) (collectively, the "Land"), (2) the renovation of an existing approximately 315,000 square foot building together with related improvements to the Land (collectively, the "Building"), and (3) the acquisition and installation therein and thereon of certain furniture, fixtures, machinery and equipment (the "Equipment"), all of the foregoing for use as a multi-tenant commercial office/industrial facility (collectively, the "Project Facility"); (B) the granting of certain "financial assistance" (within the meaning of Section 854(14) of the General Municipal Law) with respect to the foregoing, including potential exemptions or partial exemptions from sales and use taxes, mortgage recording taxes and real property taxes; and (C) the lease (with an obligation to purchase), license or sale of the Project Facility to the Applicant or such other entity as may be designated by the Applicant and agreed upon by the Agency and the sublease thereof to one or more subtenants designated by the Applicant and agreed upon by the Agency; and

WHEREAS, the Applicant has designated 2200 Northern Steel, LLC, a limited liability company organized and existing under the laws of the State of Delaware and qualified to do business in the State of New York as a foreign limited liability company and an affiliate of the Applicant (the "Company"), as the lessor of the Project Facility; and

WHEREAS, pursuant to Article 8 of the New York Environmental Conservation Law, Chapter 43-B of the Consolidated Laws of New York, as amended (the "SEQR Act") and the regulations adopted pursuant thereto by the Department of Environmental Conservation of the State of New York, being 6 NYCRR Part 617, et. seq., as amended (the "Regulations" and collectively with the SEQR Act, "SEQRA"), the Agency must satisfy the requirements contained in SEQRA prior to making a final determination whether to undertake the Project; and

WHEREAS, pursuant to SEQRA, to aid the Agency in determining whether the Project may have a significant adverse impact upon the environment, the Applicant submitted to the Agency: 1) Applicant's Application for Financial Assistance to the Agency dated May 24, 2011, 2) a Short Environmental Assessment Form dated April 21, 2011, and 3) a Phase I Environmental Site Assessment dated April 28, 2011 (collectively the "Project Environmental Documents"); and

WHEREAS, on May 26, 2011 the Board of Trustees of the Incorporated Village of East Hills (the "Board") resolved that the Project will not have a significant impact on the environment and adopted a detailed resolution and environmental impact analysis in support of its Negative Declaration based upon information developed by the Applicant; and

WHEREAS, pursuant to SEQRA, the Agency, in conducting an independent review of the Project, now desires to determine whether the Project may have a significant adverse impact on the environment and whether an Environmental Impact Statement (an "EIS") must be prepared with respect to the Project.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NASSAU COUNTY INDUSTRIAL DEVELOPMENT AGENCY AS FOLLOWS:

Section 1. Based upon a thorough review and examination of the Project Environmental Documents and upon the Agency's knowledge of the area surrounding the Project Facility and such further investigation of the Project and its environmental effects as the Agency has deemed appropriate, the Agency makes the following findings with respect to the Project:

(A) The Agency is undertaking an uncoordinated review of the proposed action in accordance with the requirements of SEQRA;

(B) Prior to making a recommendation about the potential environmental significance of the Project, the Agency has consulted several information sources, and has considered the list of activities which are Type I Actions outlined in Section 617.4 of

the Regulations, the list of activities that are Type II Actions outlined in Section 617.5 of the Regulations, and the criteria for determining significance outlined in Section 617.7 of the Regulations; and

(C) The Project is an Unlisted action pursuant to SEQRA.

Section 2. No potentially adverse significant impacts on the environment are noted in the EAF and none are known to the Agency.

Section 3. Based upon the foregoing investigations of the potential environmental impacts of the Project and considering both the magnitude and importance of each environmental impact indicated, the Agency makes the following determinations with respect to the Project.

The Project will not have a significant adverse impact upon the environment. The reasons supporting this determination are as follows:

1. The Project consists of the renovation of an approximately 315,000 square foot building on approximately 18 acres of unsightly, unused vacant land for use by several tenants for general office space, industrial and research and development use, with the possibility of medical offices, high-tech tenants and warehouse/distribution uses. The Building had been deteriorating for years and renovations are required to bring it into conformance with building codes.
2. Land use conditions at the Project Facility will not change significantly as a result of the Project. The Land is already developed and has been rezoned to accommodate the diversity of uses planned for the Building. Also, the Land is bounded by compatible residential and commercial uses. Accordingly, the currently vacant Land will be returned to active use with the renovation and operation of the Project Facility, which will restore economic activity to a vacant parcel and create employment opportunities.
3. The Land does not contain, nor lie in the immediate vicinity of any surface waterbody.
4. The Project will discharge sanitary wastewater to an existing on-site septic system, with capacity to be increased over time, and will not entail the types of activities or operations that are associated with a significant potential for groundwater contamination. Two on-site groundwater wells will be closed in accordance with regulatory requirements. Stormwater runoff would be collected by on-site drainage infrastructure.

5. The Project will not be a significant source of air emissions or odors. As the Project includes renovation of a building for multi-tenant commercial use, there may be a minor increase in traffic, but the existing roadway system has the capacity to support such an increase with lane modifications and a minor increase in traffic would not be a significant impact to air quality.
6. The Land is already developed and does not possess significant ecological value. There are no sensitive animals, plants or natural communities and/or significant wildlife habitat that will be impacted by the development of the Project Facility.
7. The Project does not involve any agricultural land.
8. The Project Facility does not contain any scenic views known to be important to the community. The aesthetic value of the Land will be improved with the renovation of the Building, including exterior improvements, and added landscaping.
9. The Project Facility does not contain historically significant resources. As the site previously has been developed, it lacks the characteristics which would suggest the potential presence of significant archaeological resources.
10. The Land is largely vacant and does not comprise public open space and is not used for recreation.
11. The Project Facility is not located in or substantially contiguous to any Critical Environmental Area.
12. Existing utility lines serve the Project Facility and no significant improvements are necessary to accommodate the Project.
13. Operation of the Project Facility is not expected to appreciably increase ambient noise levels.
14. The Project will not result in significant population growth, and generally is in character with adjacent development. The Project will result in increased employment to service the Project Facility. The Project would transform a presently abandoned and operationally defunct structure into an economically viable facility that would bring new businesses to the community and improve the aesthetic value of the Land.

15. The Project will not result in any significant impacts associated with solid waste generation. The solid wastes will be collected by a private carter for transport to existing solid waste disposal facilities, and recycling will occur in accordance with local requirements. Additionally, remediation of environmental contamination caused by prior industrial operations will be completed in accordance with applicable regulations.
16. There will be no significant adverse environmental impacts as a result of the Project.

Section 4. The Chairman, Vice Chairman and Executive Director of the Agency are hereby authorized and directed to distribute copies of this Resolution to the Applicant and the Company and to do such further things or perform such acts as may be necessary or convenient to implement the provisions of this Resolution.

Section 5. This Resolution shall take effect immediately.

The question of the adoption of the foregoing Resolution was duly put to a vote on roll call, which resulted as follows:

Jeffrey L. Seltzer	VOTING	Aye
Louis G. Savinetti	VOTING	Aye
Gary Weiss	ABSENT	
Bruce Ungar	VOTING	Aye
Christopher Fusco	VOTING	Aye

The foregoing Resolution was thereupon declared duly adopted.

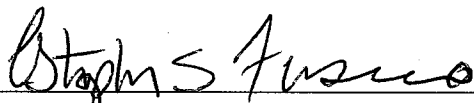

STATE OF NEW YORK            )  
  ) SS.:  
COUNTY OF NASSAU            )

I, the undersigned Secretary of the Nassau County Industrial Development Agency (the "Agency"), do hereby certify that I have compared the foregoing extract of the minutes of the meeting of the members of the Agency, including the Resolution contained therein, held on June 22, 2011, with the original thereof on file in my office, and that the same is a true and correct copy of said original and of such Resolution set forth therein and of the whole of said original so far as the same relates to the subject matters therein referred to.

I FURTHER CERTIFY that (A) all members of the Agency had due notice of said meeting; (B) said meeting was in all respects duly held; (C) pursuant to Article 7 of the Public Officers Law (the "Open Meetings Law"), said meeting was open to the general public, and due notice of the time and place of said meeting was duly given in accordance with such Open Meetings Law; and (D) there was a quorum of the members of the Agency present throughout said meeting.

I FURTHER CERTIFY that, as of the date hereof, the attached Resolution is in full force and effect and has not been amended, repealed or rescinded.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Agency this 22nd day of June, 2011.

  
Secretary  
(SEAL)
